

Product CITRONELLOL 950

Print Date 16.04.2015

Page 1 (6)

**1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING**

Product name : CITRONELLOL 950  
IFF Code : 00034733  
Cust. Material : 00034733

Use of the Substance/Mixture : Ingredient used in Flavour and/or Fragrance preparations

Company : IFF Inc.  
600 Highway 36  
Hazlet NJ 07730

Telephone : +17322644500  
Emergency telephone number : +1 800 424 9300

**2. HAZARDS IDENTIFICATION****GHS-Classification**

Acute toxicity, Category 5, Oral  
Acute toxicity, Category 5, Dermal  
Skin corrosion/irritation, Category 2  
Serious eye damage/eye irritation, Category 2A  
Skin sensitization, Category 1  
Acute aquatic toxicity, Category 2

**GHS-Labeling**

Symbol(s) :

Signal word : Warning

Hazard statements : H303 + H313: May be harmful if swallowed or in contact with skin.  
H315: Causes skin irritation.  
H317: May cause an allergic skin reaction.  
H319: Causes serious eye irritation.  
H401: Toxic to aquatic life.

Precautionary statements : P261: Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray.  
P264: Wash skin thoroughly after handling.  
P272: Contaminated work clothing should not be allowed out of the workplace.  
P273: Avoid release to the environment.  
P280: Wear protective gloves/ eye protection/ face protection.  
P302 + P352: IF ON SKIN: Wash with plenty of soap and water.  
P305 + P351 + P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do.

Version : 5

Continue rinsing.  
P312: Call a POISON CENTER or doctor/ physician if you feel unwell.  
P321: Specific treatment (see supplemental first aid instructions on this label).  
P333 + P313: If skin irritation or rash occurs: Get medical advice/ attention.  
P337 + P313: If eye irritation persists: Get medical advice/ attention.  
P362: Take off contaminated clothing and wash before reuse.  
  
P501: Dispose of contents/ container to an approved waste disposal plant.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical name of the substance : citronellol  
Chemical characterization : aliphatic alcohols  
Molecular Weight : 156.20 g/mol  
CAS-No. : 106-22-9

### 4. FIRST AID MEASURES

Inhalation : Remove from exposure site to fresh air and keep at rest. Obtain medical advice.  
  
Skin contact : Remove contaminated clothes. Wash thoroughly with water (and soap). Contact physician if symptoms persist.  
  
Eye contact : Flush immediately with water for at least 15 minutes. Contact physician if symptoms persist.  
  
Ingestion : Rinse mouth with water and obtain medical advice.

### 5. FIREFIGHTING MEASURES

Suitable extinguishing media : Carbondioxide, dry chemical, foam.

### 6. ACCIDENTAL RELEASE MEASURES

Personal precautions : Avoid inhalation and contact with skin and eyes. A self-contained breathing apparatus is recommended in case of a major spill.  
  
Environmental precautions : Keep away from drains, surface- and groundwater and soil.  
  
Methods for cleaning up : Clean up spillage promptly. Remove ignition sources. Provide adequate ventilation. Avoid excessive inhalation of vapours. Gross spillages should be contained by use of sand or inert powder and disposed of according to the local regulations.

### 7. HANDLING AND STORAGE

#### Handling

Advice on safe handling : Avoid excessive inhalation of concentrated vapors. Follow good manufacturing practices for housekeeping and personal hygiene. Wash any exposed skin immediately after any chemical contact, before breaks and meals, and at the end of each work period. Contaminated clothing and shoes should be thoroughly cleaned before re-use.

If appropriate, procedures used during the handling of this material should also be used when cleaning equipment or removing residual chemicals from tanks or other containers, especially when steam or hot water is used, as this may increase vapor concentrations in the workplace air. Where chemicals are openly handled, access should be restricted to properly trained employees.

Keep all heated processes at the lowest necessary temperature in order to minimize emissions of volatile chemicals into the air.

Advice on protection against fire and explosion : Keep away from ignition sources and naked flame.

#### Storage

Requirements for storage areas and containers : Store in a cool, dry, ventilated area away from heat sources. Keep containers upright and tightly closed when not in use.

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Verify if the substances declared in section 3 have relevant national exposure limits.

#### Personal protective equipment

Respiratory protection : Use local exhaust ventilation around open tanks and other open sources of potential exposures in order to avoid excessive inhalation, including places where this material is openly weighed or measured. In addition, use general dilution ventilation of the work area to eliminate or reduce possible worker exposures. No respiratory protection is required during normal operations in a workplace where engineering controls such as adequate ventilation, etc. are sufficient.

If engineering controls and safe work practices are not sufficient, an approved, properly fitted respirator with organic vapor cartridges or canisters and particulate filters should be used:

- a) while engineering controls and appropriate safe work practices and/or procedures are being implemented; or
- b) during short term maintenance procedures when engineering controls are not in normal operation or are not sufficient; or

c)if normal operational workplace vapor concentration in the air is increased due to heat ;  
d)during emergencies; or  
e)if engineering controls and operational practices are not sufficient to reduce airborne concentrations below an established occupational exposure limit.

### Hygiene measures

: To the extent deemed appropriate, implement pre-placement and regularly scheduled ascertainment of symptoms and spirometry testing of lung function for workers who are regularly exposed to this material.  
To the extent deemed appropriate, use an experienced air sampling expert to identify and measure volatile chemicals that could be present in the workplace air to determine potential exposures and to ensure the continuing effectiveness of engineering controls and operational practices to minimize exposure.

### Protective measures

: In December 2003, the National Institute for Occupational Safety and Health ("NIOSH") published an Alert on preventing lung disease in workers who use or make flavorings [NIOSH Publication Number 2004-110].  
In August 2004, the United States Flavor and Extract Manufacturers Association (FEMA) issued a report entitled "Respiratory Safety in the Flavor Manufacturing Workplace".  
Both of these reports provide recommendations for reducing employee exposure and for medical surveillance in the workplace. The recommendations in these reports are generally applicable to the use of any chemical in the workplace and you are strongly urged to review both of these reports.  
The report published by FEMA also contains a list of "high priority" chemicals. If any of these chemicals are present in this product at a concentration  $\geq 1.0\%$  due to an intentional addition by IFF, the chemical(s) will be identified in this safety data sheet.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### Appearance

Physical state : liquid  
Colour : colorless to pale yellow  
Odour : conforms to standard

### Safety data

Flash point : 102 °C  
Ignition temperature : > 100 °C  
Vapour pressure : 0.02 hPa

Version : 5  
Revision Date : 18.12.2013

Note: Calculated

Partition coefficient: n-octanol/water : log Pow: 3.300

### 10. STABILITY AND REACTIVITY

- Conditions to avoid : Remarks: Direct sources of heat.
- Hazardous decomposition products : Note: Carbon monoxide and unidentified organic compounds may be formed during combustion.
- Hazardous reactions : Presents no significant reactivity hazard, by itself or in contact with water. Avoid contact with strong acids, alkali or oxidizing agents.

### 11. TOXICOLOGICAL INFORMATION

- Acute oral toxicity : LD50 (rat) = 3,450 mg/kg
- Acute dermal toxicity : LD50 (rabbit) = 2,650 mg/kg
- Skin irritation : No skin irritation (patch test, human, 24 h)  
Skin irritation (, rabbit, 24 h)
- Eye irritation : Irritating to eyes. (Draize Test, rabbit)
- Sensitisation : Did not cause sensitization on laboratory animals. (,human, 6.0% in petrolatum)  
Causes sensitization. ( ,mouse)

### 12. ECOLOGICAL INFORMATION

#### Elimination information (persistence and degradability)

Biodegradability : Readily biodegradable. (80 - 90 %, 28 d, OECD 301 F)

#### Ecotoxicity effects

- Toxicity to fish : LC50(96 h, Leuciscus idus (Golden orfe)) = 14.66 mg/l (DIN 38412)
- Toxicity to daphnia and other aquatic invertebrates : EC50(48 h, Daphnia magna (Water flea)) = 17.48 mg/l
- Toxicity to algae : ErC50(72 h, Desmodesmus subspicatus (green algae)) = 2.38 mg/l (DIN 38412)

### 13. DISPOSAL CONSIDERATIONS

- Product : Disposal together with normal waste is not allowed. Special disposal required according to local regulations.
- Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal.

### 14. TRANSPORT INFORMATION

#### IATA

Not dangerous goods

**IMDG\_GLOBAL**  
Not dangerous goods

### 15. REGULATORY INFORMATION

Labelling according to EC Directives 1999/45/EC

Symbol(s) : Xi Irritant  
N Dangerous for the environment

R-phrases(s) : R38 Irritating to skin.  
R43 May cause sensitization by skin contact.  
R51/53 Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

S-phrases(s) : S24 Avoid contact with skin.  
S37 Wear suitable gloves.  
S61 Avoid release to the environment. Refer to special instructions/ Safety data sheets.

**HMIS Classification** : Health hazard: 2  
Flammability: 1  
Physical and chemical hazards: 0

### 16. OTHER INFORMATION

#### Further information

The information in this safety data sheet is based on the properties of the material known to IFF at the time the data sheet was issued. The safety data sheet is intended to provide information for a health and safety assessment of the material and the circumstances under which it is packaged, stored or applied in the workplace. For such a safety assessment International Flavors & Fragrances holds no responsibility. This document is not intended for quality assurance purposes.
