

# SAFETY DATA SHEET

## INTERNATIONAL FLAVORS & FRAGRANCES

Product TRIMOFIX

Print Date 20.04.2015

Page 1 (6)

### 1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

Product name : TRIMOFIX  
IFF Code : 00201737  
Cust. Material : 00201737  
MSDS Number : 300000356070

Use of the Substance/Mixture : Ingredient used in Flavour and/or Fragrance preparations

Company : IFF Inc.  
600 Highway 36  
Hazlet NJ 07730

Telephone : +17322644500  
Emergency telephone number : +1 800 424 9300

### 2. HAZARDS IDENTIFICATION

#### GHS-Classification

Skin corrosion/irritation, Category 3  
Skin sensitisation, Sub-category 1B  
Acute aquatic toxicity, Category 1  
Chronic aquatic toxicity, Category 1

#### GHS-Labeling

Symbol(s) : 

Signal word : Warning

Hazard statements : H316: Causes mild skin irritation.  
H317: May cause an allergic skin reaction.  
H410: Very toxic to aquatic life with long lasting effects.

Precautionary statements : P261: Avoid breathing dust/ fume/ gas/ mist/ vapours/ spray.  
P272: Contaminated work clothing should not be allowed out of the workplace.  
P273: Avoid release to the environment.  
P280: Wear protective gloves.  
P302 + P352: IF ON SKIN: Wash with plenty of soap and water.  
P321: Specific treatment (see supplemental first aid instructions on this label).  
P333 + P313: If skin irritation or rash occurs: Get medical advice/ attention.  
P363: Wash contaminated clothing before reuse.  
P391: Collect spillage.

Version : 3  
Revision Date : 20.04.2015

Page 2 (6)

P501: Dispose of contents/ container to an approved waste disposal plant.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

Chemical characterization : alicyclic ketones  
Molecular formula : UVCB  
Molecular weight : 246.40 g/mol  
CAS-No. : 144020-22-4

### 4. FIRST AID MEASURES

Inhalation : Remove from exposure site to fresh air and keep at rest. Obtain medical advice.  
Skin contact : Remove contaminated clothes. Wash thoroughly with water (and soap). Contact physician if symptoms persist.  
Eye contact : Flush immediately with water for at least 15 minutes. Contact physician if symptoms persist.  
Ingestion : Rinse mouth with water and obtain medical advice.

### 5. FIREFIGHTING MEASURES

Suitable extinguishing media : Carbondioxide, dry chemical, foam.

### 6. ACCIDENTAL RELEASE MEASURES

Personal precautions : Avoid inhalation and contact with skin and eyes. A self-contained breathing apparatus is recommended in case of a major spill.  
Environmental precautions : Keep away from drains, surface- and groundwater and soil.  
Methods for cleaning up : Clean up spillage promptly. Remove ignition sources. Provide adequate ventilation. Avoid excessive inhalation of vapours. Gross spillages should be contained by use of sand or inert powder and disposed of according to the local regulations.

### 7. HANDLING AND STORAGE

#### Handling

Advice on safe handling : Avoid excessive inhalation of concentrated vapors. Follow good manufacturing practices for housekeeping and personal hygiene. Wash any exposed skin immediately after any chemical contact, before breaks and meals, and at the end of each work period. Contaminated clothing and shoes should be thoroughly cleaned before re-use.

Page 3 (6)

If appropriate, procedures used during the handling of this material should also be used when cleaning equipment or removing residual chemicals from tanks or other containers, especially when steam or hot water is used, as this may increase vapor concentrations in the workplace air. Where chemicals are openly handled, access should be restricted to properly trained employees.

Keep all heated processes at the lowest necessary temperature in order to minimize emissions of volatile chemicals into the air.

Advice on protection against fire and explosion : Keep away from ignition sources and naked flame.

### Storage

Requirements for storage areas and containers : Store in a cool, dry, ventilated area away from heat sources. Keep containers upright and tightly closed when not in use.

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Verify if the substances declared in section 3 have relevant national exposure limits.

### Personal protective equipment

Respiratory protection : Use local exhaust ventilation around open tanks and other open sources of potential exposures in order to avoid excessive inhalation, including places where this material is openly weighed or measured. In addition, use general dilution ventilation of the work area to eliminate or reduce possible worker exposures. No respiratory protection is required during normal operations in a workplace where engineering controls such as adequate ventilation, etc. are sufficient.

If engineering controls and safe work practices are not sufficient, an approved, properly fitted respirator with organic vapor cartridges or canisters and particulate filters should be used:

- a) while engineering controls and appropriate safe work practices and/or procedures are being implemented; or
- b) during short term maintenance procedures when engineering controls are not in normal operation or are not sufficient; or
- c) if normal operational workplace vapor concentration in the air is increased due to heat ;
- d) during emergencies; or
- e) if engineering controls and operational practices are not sufficient to reduce airborne concentrations below an established occupational exposure limit.

Hygiene measures : To the extent deemed appropriate, implement pre-placement and regularly scheduled ascertainment of symptoms and spirometry testing of lung function for workers who are regularly exposed to

this material.

To the extent deemed appropriate, use an experienced air sampling expert to identify and measure volatile chemicals that could be present in the workplace air to determine potential exposures and to ensure the continuing effectiveness of engineering controls and operational practices to minimize exposure.

Protective measures : In December 2003, the National Institute for Occupational Safety and Health ("NIOSH") published an Alert on preventing lung disease in workers who use or make flavorings [NIOSH Publication Number 2004-110].  
In August 2004, the United States Flavor and Extract Manufacturers Association (FEMA) issued a report entitled "Respiratory Safety in the Flavor Manufacturing Workplace".  
Both of these reports provide recommendations for reducing employee exposure and for medical surveillance in the workplace. The recommendations in these reports are generally applicable to the use of any chemical in the workplace and you are strongly urged to review both of these reports.  
The report published by FEMA also contains a list of "high priority" chemicals. If any of these chemicals are present in this product at a concentration  $\geq 1.0\%$  due to an intentional addition by IFF, the chemical(s) will be identified in this safety data sheet.

### 9. PHYSICAL AND CHEMICAL PROPERTIES

#### Appearance

Physical state : liquid  
Colour : colorless to pale yellow  
Odour : conforms to standard

#### Safety data

Flash point :  $> 100.00$  °C  
Ignition temperature :  $> 100$  °C  
Vapour pressure :  $< 0.01$  hPa  
Note: Calculated

### 10. STABILITY AND REACTIVITY

Conditions to avoid : Remarks: Direct sources of heat.  
Hazardous decomposition products : Note: Carbon monoxide and unidentified organic compounds may be formed during combustion.  
Hazardous reactions : Presents no significant reactivity hazard, by itself or in contact with water. Avoid contact with strong acids, alkali or oxidizing agents.

### 11. TOXICOLOGICAL INFORMATION

Acute oral toxicity : LD50 (Rat) => 5,000 mg/kg  
Eye irritation : No eye irritation (, Rabbit)  
Sensitisation : Did not cause sensitisation on laboratory animals. ( ,Mouse)

### 12. ECOLOGICAL INFORMATION

#### Ecotoxicity effects

Toxicity to fish : LC50(96 h, ) = 4.23 mg/l

### 13. DISPOSAL CONSIDERATIONS

Product : Disposal together with normal waste is not allowed. Special disposal required according to local regulations.  
Contaminated packaging : Empty containers should be taken to an approved waste handling site for recycling or disposal.

### 14. TRANSPORT INFORMATION

#### IATA

UN number : 3082  
Description of the goods : Environmentally hazardous substance, liquid, n.o.s.  
(Acetic anhydride, reaction products with trimethyl cyclododecatriene)  
Labels : 9  
Packing group : III

#### IMDG\_GLOBAL

UN number : 3082  
Description of the goods : ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID,  
N.O.S.  
(Acetic anhydride, reaction products with trimethyl cyclododecatriene)  
Labels : 9  
Packing group : III  
Marine pollutant : yes

### 15. REGULATORY INFORMATION

Labelling according to EC Directives 67/548/EEC

Symbol(s) : Xi Irritant  
N Dangerous for the environment

R-phrases : R38 Irritating to skin.  
R50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.  
R43 May cause sensitisation by skin contact.

Version : 3

Revision Date : 20.04.2015

S-phrases(s) : S61 Avoid release to the environment. Refer to special instructions/ Safety data sheets.  
S24 Avoid contact with skin.  
S37 Wear suitable gloves.

**HMIS Classification** : Health hazard: 2  
Flammability: 1  
Physical and chemical hazards: 0

### 16. OTHER INFORMATION

#### Further information

The information in this safety data sheet is based on the properties of the material known to IFF at the time the data sheet was issued. The safety data sheet is intended to provide information for a health and safety assessment of the material and the circumstances under which it is packaged, stored or applied in the workplace. For such a safety assessment International Flavors & Fragrances holds no responsibility. This document is not intended for quality assurance purposes.
