

 **TastePRINT™** SUCRALOSE

Firmenich - your trusted Sweetener partner

Sucralose continues to be a popular non-caloric high intensity sweetener choice for many food and beverage brands. It is favored for its sweetness profile, stability and cost advantage.

At Firmenich, our sugar reduction portfolio continues to evolve, and we are pleased to announce that we now extend our offering to

include Sucralose for select customers. This complements our expanding integrated solutions range which will soon include additional new options.

Our size and scale allow us to deliver competitive pricing, global coverage and the infrastructure you need from a trusted partner in sweetening.
